ATHLETICBABY™ WALK, RUN & PLAY: Encouraging Winners One at a Time

BY ATHLETICBASEY

AthleticBaby has created the third in a series of DVDs that introduces children to physical activity, sports and fitness using a lively array of colorful images, fun characters and energetic music. With a simple format that is designed to appeal to children 3 months and 1 year, this is an adventure into the fun of energetic play. The DVD presents the exciting activities of walking, hopping, skipping, running and playing from a child's perspective, and encourages little viewers to join in the fun. Last year, I asked my now 2-year-old great-nephew to review the first DVD. Even today, when he arrives at my house he says, "Hi, I love you. Can I watch athleticBaby?" Approximately 30 minutes in length.
